

**Motorhome WiFi**  
Leading Leisure Connectivity Since 2012

## Are you ready to get connected?

With Mobile Broadband you can

**Watch TV Live, On-Demand  
and In-Motion - Without a Dish**

## Connected Everywhere

Imagine a fast, secure, reliable internet connection in your motorhome just like you have at home. With the latest built-in Wi-Fi packages, you have the power to stream, search and share the latest content and keep in touch without worrying about signal strength and data, even in the remotest and rural locations.

Viewing habits are changing and customers want the same TV experience in their Motorhome as at home.

With the rise in popularity of streaming TV services and with 1 in 2 households in the UK having a paid for video on demand service, there

has never been a better time to promote a mobile broadband package. With a number of

12v Smart TV's now on the market, or easy options to upgrade existing TV's using an Amazon Firestick or other inexpensive streaming devices, a reliable internet connection is required to provide a stable viewing experience. Our simple and discreet solutions you to watch TV live as well as securely browse the web in the UK, Europe and beyond without the worry of losing connectivity.

- Access to exclusive roaming SIM card deals for extended / TV use in Europe

Watch TV Live, On-Demand & In-Motion - without a dish

No Setup Required & Easy to use Smartphone App.

## Two Step Process: 1. Choose your Antenna. 2. Choose your Router

### Choice of Antenna

## 4G or 5G Ready/Pro

#### 4G Smart Antenna

Our leading 4G antenna has been tried and independently tested by thousands of our customers and used in the most remote and inhospitable locations by our brand ambassadors in all terrain vehicles.

- Proven 4G Antenna, fitted by the leading manufacturers, dealers and hire companies in the UK
- Fully certified LTE Antenna
- Works with 2G/3G and 4G worldwide compatibility
- Aerodynamic and low profile
- Ground plane independent, suitable for use on coach-built motorhomes
- Rated to IP66 water ingress protection

**Ideal for: Weekend travel, families, those who want better connectivity**

#### 5G PRO Antenna

Using the latest in antenna design, our 5G Pro antenna achieves 20% greater peak gain across the 4G spectrum while also being fully compatible with all 5G bands.

- Advanced antenna design & construction with patented technology
- Highly effective at receiving weak 4G signals
- Future proof, full 5G compatibility when paired with a 5G Pro Router
- Ground plane independent, whilst able to benefit from a ground plane where available
- IP69K, can withstand a hot pressure washer
- IK10, can withstand 5kg weight at 40cm

**Ideal for: Off grid use, heavy users, business use, professionals**

Optional Fitting Methods	Yes	Yes

## 4G Shark Compact

### 4G Shark Compact

The 4G Shark Compact complements the automotive styling associated with low-line VW type conversions. The Ground plane independent Shark Fin antenna can be fitted on a pop top roof or covertly under the canvass.

Choice of Router

## Compact or Flex

### Compact

Our most popular package

CAT 3 | ↑ 150Mbps | ↓ 50Mbps | 10 Devices

- Take your data with you - the router can be removed from the dock & used portably
- LED display provides status, notifications and access to essential functions
- WiFi repeater mode allows local WiFi to be repeated and shared inside of the van

### Flex

Fixed & Versatile

CAT 7 | ↑ 300Mbps | ↓ 100Mbps | 64 Devices

- Connect up to 64 wireless devices and up to 4 wired devices via ethernet
- LTE-A with carrier aggregation, download speeds of up to 300Mbps via 4G
- Greater WiFi range for business or home use, an alternative to fixed line broadband

## 4G Smart Compact

- Vehicle or Portable Use
- Quick Mount Docking Station
- 150 Mbps CAT 4
- 10 Wireless Devices
- 25-50m WiFi Range
- On-Screen Display
- WiFi Repeater Mode
- Easy to use smart phone app

**Ideal for: 1-2 concurrent users, web browsing & leisure**

## 4G Smart Flex

- Vehicle or Home Use
- Slim Wall Cradle
- 300Mbps CAT 7
- 4G LTE+ with Carrier Aggregation
- 64 Wireless Devices, 4 Wired
- 50-100m WiFi Range
- LED Status Lights
- Easy to use smart phone app

**Ideal for: 3 or more concurrent users, leisure & business use, streaming TV, 8m+ vehicles**

**Watch TV Live, On-Demand & In-Motion - without a dish!**

Anywhere in the UK and Europe. Compatible with all Smarts TV's, Streaming Devices and Tablets.

### Compact +

- ✓ Compatibility: 2G/3G/4G/4G+
- ✓ Vehicle or Portable Use
- ✓ Quick Mount Docking Station
- ✓ CAT 6 - 300Mbps Download / 50Mbps Upload
- ✓ 4G LTE+ with Carrier Aggregation
- ✓ 16 Wireless Devices
- ✓ 25-50m WiFi Range
- ✓ On-Screen Display
- ✓ WiFi Repeater Mode
- ✓ Easy to use smart phone app

**Ideal for: 2 or more concurrent users, leisure & business use, streaming TV**

### Flex

- ✓ Compatibility: 2G/3G/4G/4G+
- ✓ Vehicle or Home Use
- ✓ Slim Wall Cradle
- ✓ 300Mbps CAT 7
- ✓ 4G LTE+ with Carrier Aggregation
- ✓ 64 Wireless Devices, 4 Wired
- ✓ 50-100m WiFi Range
- ✓ LED Status Lights
- ✓ Easy to use smart phone app

**Ideal for: 3 or more concurrent users, leisure & business use, streaming TV, 8m+ vehicles**

### 5G Now Compact Pro

- ✓ Compatibility: 2G/3G/4G/4G+/5G
- ✓ Fastest possible 4G and 5G Speeds
- ✓ LTE CAT 22 - 3.8Gbps Download
- ✓ Touch Screen Menu & Colour Display
- ✓ Quick Mount Docking Station
- ✓ Advanced 4500mAh Battery
- ✓ 25-50m WiFi Range
- ✓ Easy to use smart phone app

**Ideal for: Use in 5G areas, early adopters and technology enthusiasts**

Roof Thread Extension 40mm £10 140mm £24

# Rural Broadband Connectivity Kit

## £280.00

5G Ready Antenna & 4G LTE-A Router

- Best selling Rural Broadband system
- Work from home
- Reliable home schooling
- 64 wireless devices
- 4 wired devices
- Greater WiFi range
- LTE-A with carrier aggregation
- Unlocked to all networks

### 4G LTE Rural Broadband Ultimate Connectivity Kit.

Increasingly, more people are finding themselves with flexible working from home arrangements along with many having to home school. If you struggle with your fixed line broadband connection being slow and unreliable, we can help to get you up to speed.

If you are looking to get broadband in a remote location, this is a fantastic package with the latest unlocked 4G router with directional external antenna for the best possible remote and rural connectivity.

As the antenna is directional, it can take a bit of time to set up depending on your location, so we take the guesswork out of it with a free antenna positioning survey which will be sent with your order.

If you intend to use the system somewhere other than your delivery address, please let us know at the point of ordering.

# 4G Smart Antenna Only

£199.99

## 4G Smart Antenna

- 4G Smart Antenna
- Fully certified LTE 2G/3G/4G
- Aerodynamic and low profile
- Rated to IP66 water ingress protection
- Ground plane independent

Antenna Colour Options: White or black

With Quick Mount: £240.00

## **4G Smart Roof Antenna Only – requires compatible router.**

At just 62mm high (2.4") the roof antenna sits lower than your skylights. The underside consists of a non-permeable 3M adhesive foam pad and an adjustable threaded internal brace, through which the cables travel into the cabin, for a totally weatherproof installation. Once the antenna is fitted, there is no need for any additional sikaflex or adhesive sealant, the product is totally self-sealing.

Please refer to fitting instructions regarding anti-hale coating on some vehicles which may need extra care when fitting.

The antenna maintains a high level of performance even when mounted on a non-metallic surface such as a coach built motorhome or caravan due to its unique ground plane independent design.
