# Motorhome iTRACK

- **Cost-Effective GPS Tracking & Security System**
- **Automatic Driver Recognition (iTrack Ultimate & iTrack)**
- **Full Immobilisation Control (iTrack Ultimate)**

The iTrack GPS tracking and security system is effective, affordable, and designed with you and your vehicle's security in mind. Thatcham accredited, the iTrack comes in several configurations depending on the level of threat you think your vehicle may be under. Or the level of cover your insurance company needs you to have.

Along with monitoring mileage, battery life and movement, the iTrack allows you to access the location of your motorhome. And gives you the reassurance to know you'll be immediately alerted if your vehicle is moved or being towed.

# S5/S7 & Ultimate

U

## iTrack Ultimate:

The Ultimate Protection with Vehicle Immobilisation

The iTrack Ultimate reaches Thatcham's highest standards S5, giving you complete immobilisation control and Automatic Driver Recognition (ADR), along with GPS tracking, battery life and mileage monitoring. So you know your vehicle has the highest level of protection and can only be moved by you or someone you authorise. You'll also have ADR Tags that mean the engine will only start with your ADR Tags are present in the vehicle.\*

\*Immobilisation is often vehicle dependant please call us to find out if your vehicle is compatible.

S5

## iTrack S5:

Stay in Control with Automatic Driver Recognition

The iTrack S5 features Automatic Driver Recognition (ADR), so you have peace of mind knowing only you or an authorised driver can move your vehicle. And should an unauthorised attempt be made to move your vehicle, an alert will immediately be triggered. Along with its GPS tracking, battery life and mileage monitoring, the iTrack S5 provides solid protection for your pride and joy.

S7

## Track S7:

A Dependable and Affordable GPS Tracking System  
With the iTrack S7, you'll have an effective and reliable GPS tracking system to safeguard your vehicle. The iTrack S7 system will log twice daily or when your vehicle is moved. And you'll be able to conveniently access your vehicle's location, monitor your mileage and keep an eye on your battery life from the handy MyPhantom app.

+

## Track Plus (Motorhome):

Protect Your Pride and Joy with an Alarm Interface  
The iTrack Plus provides full GPS tracking, battery life monitoring and mileage checking for your motorhome. Helping to keep your expensive asset safe and your holiday plans unchanged. If compatible, the iTrack Plus can connect to certain after market fitted alarm systems, giving you the alarm interface/motion sensor feature. When connected and should your motorhome's alarm be triggered, the iTrack Plus will alert our 24-hour control centre, or if vehicle is moved with switch on.

## Tracking

With industry-approved GPS tracking, the MiTrack system logs twice a day or when your vehicle is moved. You can conveniently access the location of your vehicle, access mileage records and monitor your battery via the app or online portal. Enable the iTrack's Shield which works on ignition starts feature when parked, and you'll be immediately alerted should your vehicle be moved.

## 24-Hour Control Centre

MiTrack tracking system will give you the added protection of a 24-hour control centre, providing you with alerts and support around the clock in the event of an incident.

## UK and European Roaming SIM

To ensure your MiTrack tracking device can always talk to our control centre, it's fully equipped with a roaming SIM card. This means your GPS tracker will be able to switch networks to achieve the strongest signal. So your vehicle always stays secure.

## Low Power Alerts

MiTrack tracker will help you monitor your battery level. By issuing texts and mobile push notifications, your tracking system will let you know when the battery in your vehicle is getting low on power.

## Tow Alerts

Using motion sensors, iTrack tracking device will detect when your vehicle is being towed. Should this be detected, we'll know straight away and will quickly establish whether your vehicle is being illegally towed.

## Power Cut Alerts

Should your tracker become disconnected from your vehicle's battery, don't panic. Your Moving Intelligence (Phantom) tracking system will continue to operate using its own internal battery and alert our control centre.

## MyPhantom App

The MiPhantom App and web portal will give you easy access to important information about your vehicle, both at home and on the go. So you can keep an eye on the current location of your vehicle, along with monitoring the battery and mileage data.

## Free Nationwide Fitting

To ensure your iTrack tracking system is fitted and working correctly, we've established a nationwide network of accredited installers. We have accredited installers across most of the UK who'll provide you with a professional installation service and offer a full parts and labour guarantee. So you know your tracking system will be working exactly as it's supposed to.

## Alarm Interface/ Motion Sensor

The iTrack's alarm interface feature allows the devices to connect if you have an existing, supported alarm system. When connected, the iTrack will notify our 24-hour control centre if your alarm is triggered, giving your vehicle the extra level of security it needs.

## Low Power Alerts

To help you keep on top of your battery level, the iTrack will send text and mobile push notifications to let you know when the battery in your vehicle is running low.

## Driver Recognition S5 U

An S5 or Ultimate tracking system gives you Automatic Driver Recognition (ADR). This feature allows you to be always in complete control of your vehicle. Driver tags should always be kept separate from your keys and only given to an authorised driver. If an attempt is made to move your vehicle without a tag present, the ADR feature will immediately trigger an alert.

## Immobilisation U

The iTrack Ultimate takes your vehicle security to the next level. Working with the Automatic Driver Recognition feature, your vehicle won't start if the driver doesn't have the necessary identification tag. Should you want to allow someone else to drive your vehicle, simply turn on Valet Mode via the MyPhantom app, and the immobilisation feature will temporarily be disabled.

## Thatcham Category S7

Although Thatcham changed their criteria to S7 and S5 in 2019 some of the insurers will still refer to the older Cat 5 and Cat 6 requirements.
